

# DEVELOPMENT

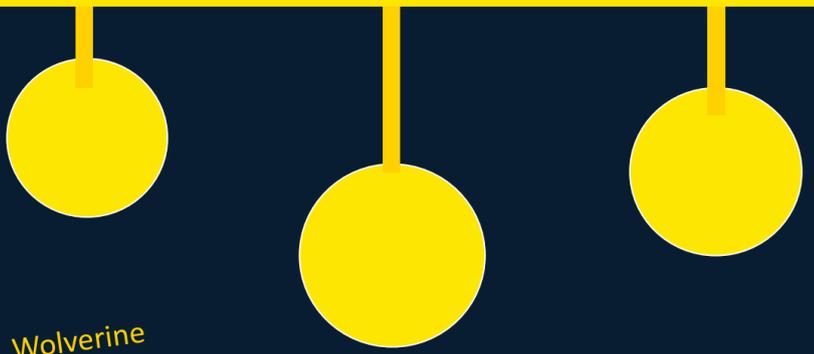

Our development does everything based on what you want, including site selection, gathering architectural drawings, construction management, and asset management all based on your criteria. We will make the moves necessary to properly develop the land, but only if it aligns with your plan and the way you want us to ask.

# PROPERTY MANAGEMENT

Our team of property managers takes care of your tenants needs by dealing with marketing your rentals, collecting rent, handling maintenance and repair issues, responding to tenant complaints, and even pursuing evictions. Dealing with tenants can be a difficult thing, but we take care of tenant screening, selection, and move in for you, as well as managing them while they are occupying the space.

# TENANT REPRESENTATION

The tenant representation brokers at Wolverine Interests use our knowledge and experience to find you a space that you can maximize productivity and achieve business goals in while also lowering costs. The idea behind our tenant representation is that we give you skills and information necessary to lease office space, such as market knowledge and negotiation skills.

# BROKERAGE

The market today is constantly changing and evolving, which makes it hard to understand everything that is going unless it is your job. Luckily for you, we have people that watch the market day in and day out so they can make extremely educated market decisions. If you entrust us with your portfolio, we will make the best decisions for you, knowing fully well that every client is different.
